

Vinayamandir Uttar Buniyadi Vidyalaya

In the year 1931, an elementary school (Kumarmandir) was established for class 5 to class 7. While working in this school, it was felt that students stay in the school and hostel for 3 years, during which they imbibe the seeds of hard work, self-reliance, honesty, regularity, responsibility, duty, social service etc. But further studying or working in a profession opposite to this environment, these rituals are soon lost. Therefore, if the student stays in the school and hostel for more years, these rituals will be strengthened.

During the annual gatherings, the parents used to make demands for Uttara Buniyadi Vidyalaya. This demand was supported by Shri Ravishankar Maharaj, Shri Babalbhai Mehta, Shri Jugatrambhai Dave etc. Shri Morarjibhai Desai also accepted the demand of parents and agreed to start Uttar Buniyadi Vidyalaya.

On 20th June 1961 Gujarat Vidyapith started Uttar Buniyadi Vidyalaya (Vinayamandir) starting from Class 8. In 1964, it became a complete school up to class 11 by raising one class every year.

Main components of elementary education.

1. Industry (Agriculture)

Skills development through industry

The formation of habits by industry

Development of trends by industry

Knowledge acquisition through industry

Experiments in Agricultural Husbandry

i) Individual plot work.
